Weather Indications.

UNITED STATES SIGNAL SERVICE, PACIFIC COAST DIVISION. SAN FRANCISCO, April 7, 1888.

Indications for the 24 hours commencing at 7 o'clock last evening: Fair weather; warmer.

Silver Bullion.

Silver bullion, 1,000 fine, was quoted to-day in New York at 96 cents per ounce.

Personal Notes.

L. Godchaux returned from the northern part of the county yesterday.

Mrs. M. S. Bonnifield was reported as being somewhat better last evening.

Miss Winnie Timmons and Miss Gertie Sibbald arrived yesterday from Golconda.

Mrs. Paul Neth, who had been visiting relatives in San Francisco for some weeks, returned home yesterday.

J. B. Haggin, a noted California capitalist, passed through yesterday going east.

Joseph Germain returned yesterday from a tour of observation up the Humboldt.

G. W. Baker, of Eureka, passed here yesterday homeward bound. He said he attended a Nevada political conference in San Francisco.

Mrs. J. J. Linn, who has been here visiting her daughters, Mrs. Trewick and Mrs. Lothrop, left for her home at Reno yesterday.

Charles McGettigan, who has been with N. Levy & Co., left for San Jose yesterday, and Joseph Heineberg, a young man from San Francisco, has taken his place.

Arbor Day.

Arbor Day was not observed to any great extent here yesterday. Something should be done to popularize the day, or it will not be a success in this part of Nevada. The public schools were not closed here, though they were at Golconda, and perhaps other places—in fact nobody thought anything about it.

Beef Cattle.

L. Godchaux of M. Brandenstien & Co., has purchased 216 head of fat beeves of of John Vance. The cattle will be shipped to San Francisco, as soon as cars can be procured. Mr. Godchaux made the first shipement of beeves from this place last Fall, and makes the last shipment this Spring.

Rich Ore.

The Esmeralda *News* says: A sack of ore weighing 135 pounds, extracted from the Pamlico mine, Hawthorne district, last week, is estimated to contain $10,000 in gold. Six sacks from the same property are valued at $1,000 each. There are 18 tons of ore on the dump worth $400 a ton.

A Miner Hurt.

John Poletti, a miner, was injured in the Winnemucca mine yesterday. While working in the air-shaft a rock fell on his head inflicting a severe scalp wound. He was brought to town and had the wound dressed and some stitches taken in his scalp by Dr. Kent.

THE ROYCE-LANSING CO.

A Large Audience Delightfully Entertained.

The Virginia *Chronicle* of Thursday says: To write that the Royce Lansing Comedy Company gave a delightful and refined musical and mirth-provoking entertainment at the Opera House last evening but dimly conveys the sentiment of every person present. The musical part of the programme was a feast of melody and the comedy portion irresistably mirth-provoking, and Ray L. Royce was unanimously conceded to surpass Sol Smith Russell as a light all-around comedian.

Physicians prescribe mirth as a preventive of contracting disease. If the faculty is right there is no danger of any member of the large audience present last evening increasing the number of patients now under quarantine, as the muscles of risibility were in constant action from the first to the last scene in the "Private Tutors."

The by play of Miss Lizzie Royce, Miss Nellie Hoskins and Web Lansing during the tutor's address was irresistably amusing.

The vocal trio with bell accompaniment and the banjo duet were the gems of the musical programme.

It can be said without flattery that the entertainment last evening was the most satisfactory of the season and insures the company liberal patronage this evening, which is the last of the engagement.

The Company will give an entertainment in Winnemucca next Monday evening, and seats can be secured at Levy's store.

Young Fish.

Lieutenant Governer Davis writes that he will pass through here Sunday morning on his way to Salt Lake City, and will leave from 25,000 to 50,000 young fish here for distribution in this county. Some of the fish are for James Ritchie of Paradise, and some for T. J. Hadley of Unionville, and the rest will be left here for distribution. Now is the time for those who want fish to stock streams or ponds in Humboldt, to come and get them as they cannot be forwarded to order.

WM. PERKINS, P. M.

Gone Back to California.

Mr. and Mrs. L. Jacobs, who recently purchased a ranch in Paradise Valley, lost a child a few days ago, who was taken ill with cholera infantum. The parents took the remains to their old home at Dutch Flat, California, for interment. The bereaved mother attributes the death of her child to a change of climate, and, as a consequence, is not favorably impressed with Nevada.

Freaks of Nature.

The Pioche *Record* says: "California has a three-legged chicken, Pahranagat Valley a five-legged colt, but Pioche can beat both. One of Charles Ball's cows had a calf last week which has but three legs and one eye. Its form is natural with the exception of the front leg, which is between the shoulders, and the eye is in the center of the forehead.

Why is it?

DEATH OF J. G. BROWN.

It Was Foretold by a Young Lady Whom He Was to Escort to a Ball.

Nearly everybody here and along the railroad knew J. G. (Big) Brown, the conductor, who ran on the C. P. R. R. a few years ago. He died recently, and J. K. Hopkins, now of Princeton, Illinois, sends the following relative to his death, from the Chicago *Times* of March 30th:

CARTHAGE, Ill., March 29.—A strange incident has come to light which may interest people who believe in the fulfillment of dreams. There was to be a ball in Dallas City, this county, a few days ago, and a prominent young society lady of the place was preparing to attend. Her escort was to have been J. G. Brown, a Santa Fe railroad conductor. The night preceding the party the young lady dreamed that she beheld a wagon drawn by two horses, and in the vehicle lay the mangled body of a man whom she could not fully recognize, but who strongly resembled her intended escort. The hideous dream frightened her, and in the morning she communicated it to several friends, who laughed at what was termed her foolish fancies. Conductor Brown was fatally mangled by the cars that day at noon, and as the solemn procession, headed by the wagon bearing the mangled remains, filed up the street, the young woman cried: "That is my dream! Oh, that was my dream!" and swooned away.

What Constitues a Family Medicine?

A preparation which is adapted to the relief and cure of all ailments to which members of a household are most subject, and which is not only alleged to do this, but has long and unfailingly proved its ability to do it, assuredly deserves the title of a reliable Family Medicine. Among time-honored preparations, which experience and the sanction of the medical profession indicate as deserving of popular regard and confidence, is Hostetter's Stomach Bitters, a medicine adapted to the eradication of dyspepsia, constipation and biliousness, the three most frequently occurring ailments that vex mankind. Derived from a botanic parentage, it is efficient as well as pure and wholesome, it relieves nervous disquietude and inactivity of the kidneys, and counteracts a tendency to rhumatism. For renewing flagging strength and imparting appetite it can be implicitly relied upon. Fever and ague, rhumatism and debility are remedied by it.
